

Smarter, Profitable Maintenance Through AI

With FacilGo's cutting-edge, AI-driven maintenance platform, you can discover hidden revenue and achieve transformative operational efficiencies while remaining cost neutral or better.

Turn your maintenance process into a profit center

Reveal the hidden value in your maintenance program:

- Discover money you are leaving behind from unrealized resident chargeback opportunities
- Get insight into your entire process from inspection through invoicing to achieve optimized cost savings
- Streamline procurement with the **FacilGo Marketplace and Supplier Network** for costs savings and increased compliance
- Leverage maintenance skills to offer concierge services to residents

Use AI to redefine your call center and resident portal

Use a smarter AI approach to achieve better value:

- Identify true emergencies to prioritize repairs and deploy on-call staff efficiently
- Automate triaging, scheduling, and outsourcing to optimize your staff activities
- Match and schedule the correct skillset to the job for in-house and 3rd party suppliers
- Increase resident satisfaction through simplified request options: call, email, text, or submit via FacilGo's resident portal

Service your Multifamily and Single Family Rental properties

Utilize FacilGo's platform across your portfolio:

- Integrate easily with the leading PMS platforms with pre-built integration and easily configurable APIs
- Use FacilGo's flexible technology platform to grow with your evolving maintenance strategy
- Supercharge staff and supplier efficiency with our mobile app, even with little or no connectivity
- Close work orders quickly with our real-time dashboard insights
